

THE CARTECK AUTOTREND

CarTeck Remote Control Sectional Garage Doors

Great value,
no compromise
on quality and
fast delivery in
as quick as 3-4
weeks!

THE CARTECK AUTOTREND RANGE

Designed specifically for the cost conscious buyer, the CarTeck AutoTrend range of remote control sectional garage doors offers great value without compromising on good looks or excellent performance.

Not only a great price, these doors are made to order in just **3-4* weeks for stock designs and colours and just 6* weeks for non-stock designs**. See each range for availability - stock designs and colours are grouped together and easy to identify with the pink spot - as shown to the right! *The lead time depends on location and may also increase during periods of high demand - please check with your supplier. You should also allow additional time for scheduling installation with your garage door supplier.

**The lead time depends on location and may also increase during periods of high demand - please check with your supplier. You should also allow additional time for scheduling installation with your garage door supplier.*

AUTOTREND GEORGIAN

CarTeck DRIVE[®]

Includes a CarTeck DRIVE 500 remote control opener
and two Pearl Twin Transmitters

The Classic

The Georgian design features are a timeless favourite and work beautifully with the addition of windows for an added accent and natural light.

Choose from these surface textures and colours for 3-4 week lead time*

Surface Textures

Woodgrain Textured

Colours

White (RAL 9016)

Doors include the option of a colour matched** frame for a complete look!

Compare a CarTeck Georgian panel design to any other door on the market. The CarTeck Georgian stamp has classic proportions compared to the shallower and shorter stamps of other profiles.

Visually, this means CarTeck Georgian doors are more attractive and better balanced in their overall proportions.

Choose from these surface textures/colour combinations for a 6 week lead time*

AUTOTREND WINDOWS

Scratch-resistant Polymer
Double Pane
Clear

Scratch-resistant Polymer
Double Pane*
Frosted

Scratch-resistant Polymer
Double Pane*
Satin

*The exterior pane is Frosted/Satin and the interior pane is Clear.

Scratch-resistant Polymer, double glazed windows in attractive designs allow natural light into your garage.

As harmonious integration or intentional contrast – aligned with other facades and windows, vision elements play a key role in shaping the overall architecture of your house.

Window frames are coloured to be similar to the door panel. Selected Trend colours are finished in a complementary flat colour Textured Anthracite (RAL7016), Ice Crystal Grey Aluminium (RAL9007) and TT9016 Bling White (RAL9016). The surrounds on aluminium GSA window sections are finished in a smooth finish.

Window frame colour shade and surface lustre will show a variance from the panel finish as the base material and coating methods are different.

SAFETY ABOVE ALL

Safe operation of CarTeck AutoTrend is the overriding priority of every design decision we make. Precise manufacturing tolerances ensure quality is high and long-term reliability and durability is inherent, which in turn maintains safety.

FINGER SAFE & HAND PROTECTION

The patented finger pinch protection at panel joints protects you from injury. Protection at the side of the door prevents a hand from being accidentally caught between the frame and guide rail.

QUIET DOOR OPERATION

Innovative designs worked out in great detail, such as rollers made from special plastic, ensure quiet opening and closing. Rattling door movements are a thing of the past.

Our doors and openers are independently tested and certified to all current safety legislation and carry a CE/UKCA mark.

MAXIMUM

CONCEALED SPRINGS

Where is the best and safest place for springs? One place - concealed and enclosed, high up in top trays, safely away from fingers. The trays also keep the springs in pristine condition, ensuring long-term smooth and quiet operation.

Concealed springs shown from above with the covers removed.

-  Safe, concealed springs
-  Visible, dust traps and potentially within reach of inquisitive little fingers

SAFETY SENSING

The motor control units' safety circuits monitor force levels many times every second. If the door encounters an obstruction, it is instantly sensed and the motor stops and reverses a short distance.

6 POINT GUARANTEE

The warranty periods below only apply to products that have been correctly installed as per the instructions, maintained by a Garage Door Specialist and operated and cleaned in accordance with the requirements set out in the operating and maintenance sections of instructions and labels.

2-year manufacturer's guarantee

- on polymer and aluminium window units

5-year manufacturer's guarantee

- on rollers, hinges, cable pulleys, cables and standard springs (opening/closing max. 5 times a day)

10-year manufacturer's guarantee

- on panels against rust penetration from inside to outside
- against door panel separation of steel from foam
- on material and manufacturing flaws of all non-moving parts of the frame that are verifiably unusable or whose usability is substantially compromised
- on floor seal, intermediate seals, side seals and lintel seal against rotting

The guarantee does not apply to doors that are subjected to extreme conditions, e.g. corrosive influences resulting from use in a coastal climate with high salt content.

EXTERNAL RELEASE

In the event of power failure, the motor can be disengaged using the discreet external release. This should be fitted if no alternative access to the garage is available to allow manual operation of the door until power returns.

Terms & conditions apply - see: www.teckentrup.co.uk

SAFETY & PERFORMANCE

LOOKING FOR...

MORE COLOURS?

The options are endless!

Choose from a range of Trend colours, wood effect finishes or any RAL colour.

SIDE DOORS?

The perfect match!

Add easy and elegant access on foot with a matching side door! See the CarTeck Side Hinged brochure for the full range!

AVAILABLE WITH CARTECK AUTOMATIC!

You'll find an array of options available with our CarTeck Automatic range of garage doors! Scan the QR code to download copy of the brochure for all the details...

A note about colour

Where doors are exposed to direct sunlight, dark colours should be avoided.

RAL references for colours are provided as a guide only to the nearest similar RAL colour. Colours will not match to other RAL finishes due to different coating processes, gloss levels, substrates and textures. Similarly, special RAL, BS, wood effects or other colours will not be a precise match.

Colours shown are limited in accuracy by the printing process - samples should always be requested.

All frame legs, headers & 3D profiles are available in smooth finish only.
